

- CLIENT:** PEO C4I / Tactical Networks Program Office (PMW 160)
- PROJECT FOCUS:** Continuous Process Improvement (CPI): Lean Six Sigma (LSS) and Capability Maturity Model Integration (CMMI)
- OVERVIEW:** FSI provides a wide range of support to PMW 160 within the following areas:
- Acquisition Management
 - Continuous Process Improvement
 - Financial and Budget Management
 - Navy ERP Implementation and Training
 - Program Management
 - Risk Management
- OBJECTIVES:**
- Provide overall Continuous Process Improvement and ASQ Certified Six Sigma Black Belt support to the Program Manager and Deputy Program Manager.
 - Manage the execution of current LSS and CMMI projects and provide subject matter expert input for the development of new projects.
 - Train Program Office staff to lead project teams and utilize LSS and CMMI tools and principles.
 - Provide high-level program updates to Program Office leadership.
 - Participate in strategic planning, resource planning and data management.
- RESULTS:** The project achieved the following results:
- Managed the completion of eight LSS projects in FY09 with total savings of over \$2Million.
 - Managed the completion of four LSS projects in FY08 (year one of LSS deployment in program office).
 - Mentored three LSS Green Belts and one LSS Black belt through certification in FY09.
 - Implemented the CMMI for Acquisition Process Areas of Requirements Management and Risk Management in multiple programs.
 - Provided CPI support to the Strategic Plan Development Team.
 - Facilitated and participated in PMW 160 LSS Executive Steering Group meetings.
 - Developed the PMW 160 Process Improvement Policy, which was tailored to support program office strategic objectives.
 - Created a LSS project scorecard for the Program Manager and Program Office leadership.
